# The Marano Lagoon

## THE LAGOON

The Marano Lagoon is a natural wonder, a small treasure chest of beauty not far from Bibione and Lignano. In this unique environment the land meets the sea, the landscapes change and among the reeds, marshes and wetlands you can see animal species such as lagoon ducks and white swans.

The Marano Lagoon represents a precious and delicate ecosystem that must be known and respected. Various watercourses and canals connect it to the hinterland. The thin line of land that shelters the lagoon from the sea offers precious unspoilt beaches. Since they can only be reached by boat, these natural, wild beaches with their crystal-clear waters allow those who reach them to spend a few hours in an enchanted place and experience something very different from the crowded beaches on the coast.

If you fancy the idea of discovering this enchanting lagoon and sailing a few hours on board a comfortable catamaran, discover the three experiences we recommend. Departures are from Bibione.

## Excursions by catamaran

An afternoon or a full day on a catamaran discovering the wild beauty of the beautiful Marano Lagoon. Sun, relaxation, sea, diving, and arrival at a free, unspoilt beach that can only be reached by boat. If you want to enjoy a fun afternoon discovering the hidden corners of this part of the coast, this is the experience for you. You can choose between a 4-hour afternoon excursion and a full-day excursion with 2 different itineraries, one all the way to the Marano Lagoon and one all the way to Grado. Among the things to do in Bibione to experience a few hours in a less crowded sea this is definitely the freshest, funniest and most adventurous experience.

Departure at 10 a.m. from Bibione and after the first half-hour sailing in front of Lignano we will enter the waters of the lagoon. We will enjoy a nice tour in and out of the channels to discover this wonderful environment and then we will stop for lunch; our advice is to get off and take the opportunity to eat in a “casone” in the lagoon.

After lunch we will set off to the waters off the free beach on the strip of land in front of the lagoon. Here you will have plenty of time for an offshore dive or to reach this pristine beach.

You will go ashore near the centre and have some free time for a nice walk in the centre of Grado and for lunch (recommended in a restaurant in the centre). In ancient times Grado was the Roman Empire's maritime port for the exchange of goods in the Upper Adriatic.

After lunch you will depart in the direction of Bibione along the route outside the lagoon to reach the strip of land with the free beach in front of the Marano Lagoon. Diving and swimming both offshore and on the beach await you.
